

# Chemola™ Desco Super Penetrant

Fast-Acting Rust and Oxide Penetrant

**Chemola™ Desco Super Penetrant** is a clear, all purpose industrial penetrating oil. It is scientifically formulated for maximum penetration to give faster breakout. It can be used for all dismantling jobs throughout the plant, shop, rig or wherever metal parts are hard to operate or are frozen by corrosion. The lubricant in Super Penetrant is an extreme pressure oil that plates quickly onto metal surfaces. This allows the threads to be loosened while all the metal surfaces are coated to prevent galling. Super Penetrant can be used as a protective coating for freshly machined surfaces. This product should not be confused with ordinary penetrating oils. This premium penetrating oil handles your easy jobs, your hard jobs, and your impossible jobs.
