

Chemola™ Desco Super-Q-Sol

Steam Cleaner and Rig Wash Concentrate

Chemola™ Desco Super-Q-Sol makes a solution that will penetrate and remove all types of grease and grime normally encountered in industrial and commercial cleaning jobs. It is formulated for steam cleaners and power washers, but equally effective when applied by rag, brush or spray. Chemola™ Desco Super-Q-Sol will not clog jets or lines in power equipment.

Chemola™ Desco Super-Q-Sol concentrate is a complex, biodegradable liquid detergent that is most effective with high dilution ratios of water. A normal dilution ratio of 1 to 50 parts water is recommended but the ratio will vary from 1 to 20 parts water up to 100 parts water, according to water properties and cleaning conditions. The cleaning solution is non-flammable and can be used in hazardous plant areas.

Additional information

Do not use full strength.

Typical Characteristics

Appearance	Fluorescent green liquid
pH	10-12
pH (1% in water)	9
Specific Gravity	1.0
Density (lb/gal)	8.7
Viscosity	80-200 cps
VOC Content	< 0.1% (1 g/L)
Hard Water Stability	Stable
Metal Corrosion	None
Environmental Status	Biodegradable
Recommended dilution ratios	
Minimum	5:1
Maximum	100:1
Steam Cleaner	50:1
Power Washer	40:1
Floor Scrubber	30:1

Packaging Information

Part Number	Item Number	Unit Size	Quantity
QS04-05-IA	0811001WP	1 gal	4 per case
QS06-20-IA	0811040WP	5 gal	
QS55-20-IA	0811440DR	55 gal drum	

DO NOT USE ON OXYGEN SERVICE.
Special packaging sizing available upon request.
